# MESSAGE FROM PRESIDENT

A message from our president

I want to thank all our distributor's support in the last 10 years. Without your trust and help, we will not have this 10 years anniversary, We will continue to concentrate on developing and designing the reflective apparel to protect all the workers.

We welcome all the voices about your ideas on reflective apparels, suggestions on our services, successful stories with GSS. You can email to [socialmedia@GSSsafety.com](mailto:socialmedia@GSSsafety.com) and Your story may on our next newsletter. We also mail you a GSS 10 Year Anniversary Gift Package.

**PING YE**  
PRESIDENT

At **GSS Safety**, we are dedicated to manufacturing a comprehensive range of ANSI/ISEA certified high-visibility apparel, designed to keep workers safe in low-visibility environments. From vests and T-shirts to waterproof jackets, rain gear, and accessories, our products offer reliable protection on the job. Our mission is to provide innovative, safety-driven solutions that help safeguard workers from the risks of reduced visibility.

Our products are rigorously tested to meet leading international standards, including ANSI/ISEA 107-2020, ensuring the highest level of safety and reliability. With a wide range of styles and designs, we cater to the diverse needs of our customers. As a direct manufacturer, we offer quick turnaround times and the flexibility to provide private labeling, logo imprinting, custom designs, and unique packaging to meet specific client requests.

If you have any questions or would like to have a catalog, please feel free to contact us at [sales@GSSsafety.com](mailto:sales@GSSsafety.com).

# OUR GSS BRANDS

## BEYOND THE BASICS

Our ONYX collection of safety vests is engineered with high-performance fabrics and distinctive designs that stand out in any work environment. Each vest delivers exceptional value without compromising on quality, offering feature-rich styles that combine durability, comfort, and functionality. Designed for professionals who demand more, the ONYX range ensures you're always seen—and always protected.

## LITTLE SAFETY BRIGHT FUTURE

Lil Cece is a lively little girl, always on the move — running, climbing, exploring. As a sales mom specializing in reflective apparel for adults, I often asked myself: Should children wear high visibility clothing too? My answer is a confident yes.

That's why I created Lil Cece—a line of high-visibility safety vests and apparel designed just for kids. Our goal is simple: to make safety gear that's comfortable, easy to clean, and—most importantly—kids love to wear.

Because visibility shouldn't be just for grown-ups.

## GLOBAL PROTECTION

GSS ECO is a bold new collection of safety wear designed with two key priorities: protecting YOU and protecting the PLANET. This innovative line includes a full range of eco-conscious safety vests—crafted using sustainable materials without compromising on visibility, durability, or compliance. With GSS ECO, you're making a safer choice for yourself and a smarter one for the environment.

## PROTECTING THE COLORS

The GSS Patriot Collection celebrates the spirit of the American workforce, with bold designs in red, white, and blue—our nation's proud colors. This line is made for the everyday heroes who build and protect our country from the ground up. Featuring a wide range of high-visibility safety vests, each piece is built for durability, comfort, and compliance, while proudly showcasing American pride. We stand with the hardworking men and women in the field—this collection is for you.

## CRYSTAL CLEAR PROTECTION

QUARTZ is a next-generation collection launched in 2020, combining functional workwear with high-visibility design. Built for field professionals, QUARTZ keeps visibility and safety front and center—our mission is to help protect more workers across more industries.

The range includes a variety of high-performance safety vests, from lightweight breathable options to ANSI/ISEA-certified styles—all engineered for comfort, durability, and maximum visibility.

## STAND OUT FROM THE CROWD

Our Incident Command Safety Vests are available in a full spectrum of colors to support visibility, organization, and effective communication in the field. Whether you're standardizing corporate identity with custom company colors or assigning different vest colors to distinguish teams, departments, or roles, our wide range offers the flexibility you need. These vests are ideal for use in incident command systems, emergency response operations, construction sites, and other environments where quick identification is critical. Designed to support structure and clarity, our color-coded safety vests help keep teams coordinated and operations running smoothly.

## LADIES APPAREL

GSS Pearl is the new collection the focus on female apparel. With more and more female workers on the road/construction, We want to put more attention to female apparel with female cut. We also bring in Pettie sizes for woman needs

2015

2016

2017

GSS Safety was founded in 2015 in the United States by Ping Ye, with a dedicated mission to create high-quality safety apparel that supports and protects workers across various industries. Since its inception, GSS Safety has combined innovation with a commitment to safety, developing products that meet rigorous standards and enhance visibility, comfort, and durability on the job.

The aim of our covers was to develop a hero identity that customers of our products could relate to, and so was born our first cover hero in 2015 – strong and muscular and ready for the safety mantle.

The “ONYX range”, introduced in 2016, sets a new standard in safety apparel, combining cutting-edge technology with modern, streamlined aesthetics to meet the demands of today’s professionals. Engineered for exceptional performance, this collection features advanced reflective materials for maximum visibility and ergonomic designs that prioritize all-day comfort in even the toughest environments. Each piece is crafted from durable, high-quality fabrics built to withstand rigorous conditions while maintaining a polished, professional appearance. The ONYX range is defined by thoughtful details such as multi-functional pockets, reinforced stitching, and easy-fit adjustments that enhance functionality and adaptability across a variety of job roles. Whether you’re on a construction site, directing traffic, or performing industrial tasks, the ONYX range offers unparalleled durability, protection, and style, proving that safety gear can go beyond utility to inspire confidence and professionalism.

In 2016, we released two distinct catalogs—one for summer and one for winter—highlighting the versatility and adaptability of the Onyx range of safety wear. Designed to meet the demands of both seasons, this collection ensured that individuals could feel comfortable, whether staying cool in the summer heat or warm during the winter chill, all while prioritizing safety. To showcase this, we featured our hero products in diverse weather conditions, capturing the satisfaction and confidence of staying protected and at ease in any environment. By addressing seasonal needs, we reinforced our commitment to providing safety wear that seamlessly combines performance, comfort, and reliability throughout the year.

In 2017, We have completed the first 3 years business milestone. We continued pushing the ONYX line to the market. We want to give a special “Thank you to our strategic distributor, Donald Meeker, the president of HiViSupply, Donald has helped us to develop the entire ONYX line and promoted the market, without Donald’s knowledge about reflective apparel, supporting for GSS, We would not have ONYX brand. Donald also created ONYX brand name for GSS. I would give this special “Thank you to Donald for 2017.” This is the year, GSS started to become a noticeable reflective apparel in US market.

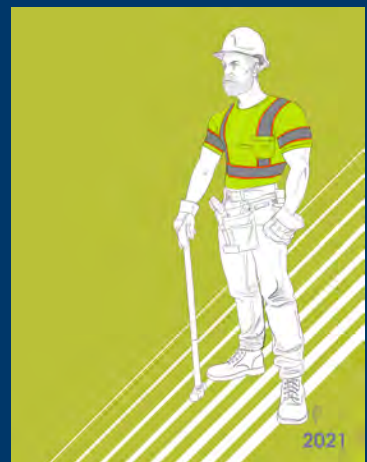

OUR HISTORY

www.GSSsafety.com

industrial hi-visibility safety apparel

2018

2019

2020

2021

In 2018, GSS Safety made a significant milestone by moving to a new premises that has since become the enduring home of the company. This state-of-the-art facility was carefully chosen to support the growing operations and vision of GSS, providing the space and resources needed to design, manufacture, and distribute high-quality safety apparel. The move marked a new era for the company, fostering innovation, collaboration, and efficiency under one roof. To this day, this location serves as the central hub where GSS continues to expand its reach, uphold its commitment to excellence, and deliver industry-leading safety solutions to professionals worldwide.

In 2019, we proudly introduced the Quartz range, a groundbreaking addition to our safety wear lineup. This new collection was designed with a focus on durability, comfort, and innovation, offering solutions that met the evolving needs of workers across various industries. The Quartz range featured enhanced materials that provided superior protection while maintaining breathability and ease of movement, ensuring that wearers could perform their tasks safely and comfortably. With its modern design and advanced safety features, the collection quickly gained recognition for setting a new standard in workwear. The launch of the Quartz range marked a significant milestone for us, reflecting our dedication to combining cutting-edge technology with practical design to deliver safety apparel that both protects and empowers professionals on the job.

The COVID-19 pandemic reshaped life in the United States, causing widespread illness, lockdowns, and remote work transitions. Hospitals faced surges, exposing healthcare disparities, while vaccination campaigns launched in late 2020 helped curb the crisis. The pandemic's economic and social impacts highlighted the need for resilience, mental health support, and global cooperation in addressing such challenges.

Our hero took on the mantle of representing the super hero warrior fighting for the good of the people against the virus, as shown in our 2020 cover image.

In 2021, our hero took on a fresh, modern style to make the catalog more visually appealing and relevant to contemporary design trends. Featuring posed sketch-style views, the hero was presented alongside supporting figures, creating a dynamic and artistic look that elevated the catalog's presentation. The new landscape format provided a sleek and polished layout, allowing the designs to stand out while maintaining a balance between creativity and product functionality. This evolution not only showcased our safety wear in a unique and engaging way but also reinforced our commitment to innovation and staying ahead in the modern market.

2022

In 2022, we introduced our GSSColor range, a bold step forward in safety apparel that combined functionality with vibrant, eye-catching design. This new line offered a wider variety of color options, allowing workers to maintain high visibility while expressing individuality and aligning with industry or company branding needs. The GSSColor range was carefully crafted to maintain the same high standards of safety, durability, and comfort that our customers expect, while adding a modern twist to traditional safety wear. By incorporating innovative color solutions, this range brought a fresh perspective to workwear, proving that safety gear can be both practical and visually appealing. The launch of GSSColor reinforced our commitment to innovation, meeting the evolving needs of workers who value style without compromising on protection and performance.

2023

In 2023, we proudly introduced our first female hero, marking a significant milestone with the launch of our dedicated female brand, GSPearl. This addition reflected our commitment to inclusivity and the growing demand for safety apparel tailored specifically for women. The GSPearl range was designed with precision, combining functionality, comfort, and style to meet the unique needs of female professionals in the workplace. Featuring thoughtfully tailored fits, modern designs, and the same high standards of safety and durability as our other collections, GSPearl empowered women to perform their best with confidence and ease. By showcasing a female hero in our catalog, we not only celebrated the vital role women play across industries but also reinforced our vision of creating safety wear that serves everyone equally.

2024

In 2024 and beyond, we are focusing on environmental efforts to help protect and preserve the planet. This commitment includes collaborations with major industry leaders in recycling technologies to incorporate sustainable practices into our production processes. By utilizing recycled and eco-friendly materials, we aim to reduce our environmental impact without compromising the safety, quality, or durability of our products. Central to this initiative is the introduction of "GSSECO", a groundbreaking range designed with sustainability at its core. GSSECO combines innovative materials and production techniques to deliver safety wear that meets the highest standards while supporting global environmental goals. As we move forward, our dedication to sustainability will continue to guide our efforts, ensuring that we contribute to a cleaner, greener future for generations to come.

2025

What does the future bring? With ten years of growth and countless brand developments, we envision a bright future filled with even more innovations and breakthroughs in the world of safety apparel. And for our hero? Expect to see a more dynamic and engaging figure, one who not only entertains but also educates and demonstrates the importance of safety in your workplaces. As we continue to evolve, our mission remains clear: to provide you with safety apparel that combines quality, functionality, and innovation. Stick with us and make GSS your first choice for safety apparel—because your safety is our priority.

# GSS HEATED JACKETS

## HEATED JACKETS

- 260T polyester with TPU laminated shell, offering windproof, waterproof, and tear-resistant properties.
- Heating System: Integrated heating elements powered by an included 10,000 mAh power bank, delivering up to 4-8 hours of continuous warmth.
- Lining: Soft polyester lining enhances comfort and heat retention.
- Closure: Front zip closure with snap storm flap ensures a secure fit and additional protection against the elements.
- Pockets: Features multiple pockets, including inner chest pocket, lower slant pockets, cell phone pocket, and pen holder pockets on the sleeve, providing ample storage for essentials.
- Detachable hood, elasticized waistband, and wrist cuffs for a customizable fit.
- WARNING: Cancer and reproductive harm

Press and hold the heated clothes button for 3 seconds to start working, short press to switch the temperature mode.

# GSS HEATED JACKETS

## HOW TO USE:

- Using a 5V2A 10000mAh capacity power pack (power bank), the elements heat up quickly in seconds and can be used for 8-12 hours.
- Press and hold the heated clothing button for 3 seconds to initiate the start process of device, then a short press to switch between temperature modes.
- Highly efficient heating system with two control buttons and 55 heating elements.
- Machine washable, safe and easy to clean. Please remove the power pack (power bank) and zip up the pockets before washing.

The temperature is the system temperature. After the finished product is assembled, the surface temperature of the finished product will change depending on material.

## WASHING INSTRUCTIONS:

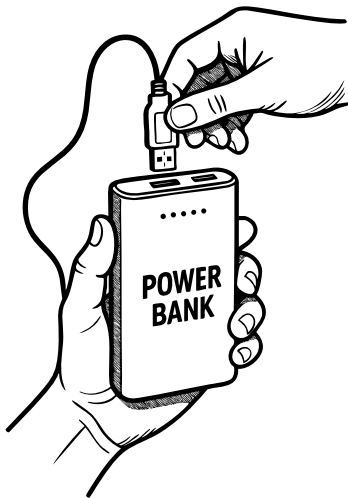

- Before washing, make sure the mobile power supply (power bank) has been removed.
- When washing, please ensure that the waterproof cover of the USB interface is covered. Put the product into a laundry bag, use a gentle cycle, hang the garment in a cool place after washing, and make sure it is completely dry before reuse.

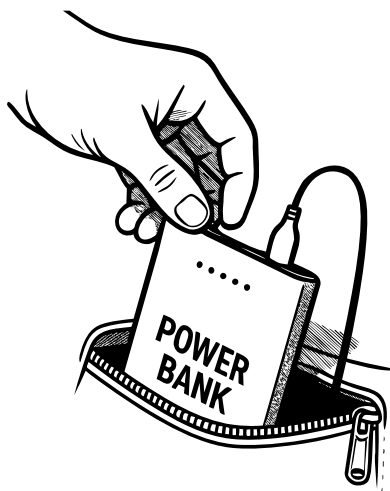

### CERTIFICATION

- ANSI/ISEA 107-2020 TYPE R CLASS 3
- ANSI/ISEA 107-2020 TYPE R CLASS 3
- NON-ANSI

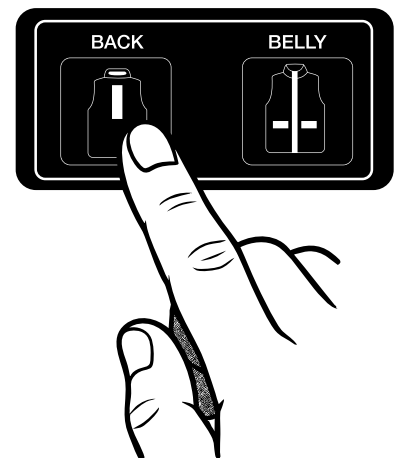

## POWER BANK:

① Connect the USB cable to the mobile power supply

② Put the mobile power supply into the inner power pocket

③ Long press (3 seconds) to turn on the warming elements.

## GSS ECO- GREEN, SAFETY. SUSTAINABILITY

We have developed a new mission of “GSS”, **Green. Safety. Sustainability.** GSS ECO is our new sub-brand that specializes in recycled fabric. We have implemented these steps within GSS:

- We will partner with the world’s leading recycling companies, like **UNIFI**, to bring high quality fibers to make safety apparel
- We will reduce our package usage, starting with bulk, master packages
- We will use recycled material for all our plastic polys, paper tags, and cardboard boxes
- We will reduce the printing impact, by using as little ink as we can

# COLORFUL PPE STAND OUT FROM THE CROWD

## INCIDENT COMMAND SAFETY VESTS IN ALL COLORS

In emergency situations it's important for people to quickly identify groups of emergency responders and volunteers in a certain area. Incident command vests allow different groups to wear uniquely colored reflective vests so they can be easily identified by teams, volunteers, or civilians. This is crucial when tensions are high, and fight or flight emotions are running high during critical emergencies or accidents.

## CORPORATE COLORS FOR COMPANY IDENTITY

Research has shown that a signature color can increase brand recognition by 80%. Even without seeing their logo, most people could recognize a Starbucks drink by its characteristic green straw. According to Reboot's study, when shown a selection of five made-up company logos, 78% could recall the primary color of the logo compared to only 43% who were able to remember the name.

## DIFFERENT COLORS FOR DIFFERENT GROUPS IN WORKING FIELD

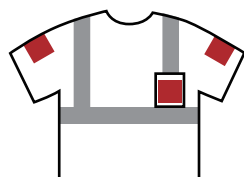

In modern workplaces, the use of vibrant, color-coded safety vests is becoming increasingly prevalent as a practical way to identify and organize different groups of employees. This strategy enhances efficiency by allowing coworkers and supervisors to quickly and accurately recognize team roles or statuses at a glance. A great example can be seen in Amazon warehouses, where new hires don red vests, symbolizing their training phase. Upon completing their training, they transition to lime-green vests, signifying their readiness to fully integrate into the workforce. This system not only streamlines communication but also reinforces a sense of structure and clarity within high-paced environments.
