ABOUT GSS SAFETY

GSS Safety is a manufacturer specializing in a variety of **ANSI/ISEA** approved Hi-Visibility apparel including vests, t-shirts, waterproof jackets, waterproof rain gear, accessories, and much more. Our goal is to constantly strive to protect workers from serious hazards caused by low visibility.

Our products have been tested by most International standards like **ANSI/ISEA 107-2020**. We offer many styles and designs that will satisfy the needs of our customer base. By being a direct manufacturer, we can provide fast turnaround to all orders. We can also provide private labeling logo imprinting, custom designs and unique packaging upon your request.

If you have any questions or would like to have a catalog sent to you, please feel free to contact us at sales@GSSsafety.com.

QUARTZ

BRAND INTRODUCTION

QUARTZ is a NEW collection that specialized in combining functional workwear with high visibility. We understand the importance of visibility for all field workers. To be seen is and will continue to remain our mission to protect more field workers.

ONYX

BEYOND THE BASICS

ONYX collection offering high performance fabrics and unique designs. This collection delivers quality with excellent value plus feature-filled styles.

LIL' CECE

THE STORY OF LIL CECE

Lil Cece is a little energetic girl running here and there. Being a sales mom specialized in reflective apparel for adults, I have been always asking myself if children should wear high visibility clothing, my answer is yes.

COMPANY STATEMENT

WE STAND OUT FROM THE CROWD

INCIDENT COMMAND SAFETY VESTS IN ALL COLORS

In emergency situations it's important for people to quickly identify groups of emergency responders and volunteers in a certain area. Incident command vests allow different groups to wear uniquely colored reflective vests so they can be easily identified by teams, volunteers, or civilians. This is crucial when tensions are high, and fight or flight emotions are running high during critical emergencies or accidents.

CORPORATE COLORS FOR COMPANY IDENTITY

Research has shown that a signature color can increase brand recognition by 80%. Even without seeing their logo, most people could recognize a Starbucks' drink by its characteristic green straw. According to Reboot's study, when shown a selection of five made up company logos 78% could recall the primary color of the logo, compared to only 43% who were able to remember the name.

DIFFERENT COLORS FOR DIFFERENT GROUPS IN WORKING FIELD

We see more companies using colorful vests in their work place to identify the different groups of people. It is more efficient for co-workers and supervisor to know their groups. For example, in Amazon warehouses, people wear red colored vests for all new hires and then switch to lime vests after they complete their training.
